

HEAT? COLD? PROTECTION? OVERVIEW AT A GLANCE.

Sport is exertion and peak performance. Sport, however, is also balance and relaxation. But one thing is universally true: SPORT LAVIT ensures that every moment is a sportsmoment. For every challenge, our broad range provides the right product – each one fulfilling its own special function – for just the right effect. Before, during and after sport.

In the end, all that matters is that every athlete has direct access to the product that will provide them with

optimal support. The SPORT LAVIT system ensures this. At SPORT LAVIT, every sport-lover can immediately find what they need.

Cooling, heat or protection: with the help of the colour scheme and classification through numbers and scales, individual products can be quickly allocated. A quick check on the shelf, a targeted grab... and nothing can stand in the way of your sportsmoment!

1. DYNAMIC STRIPES

FIELD OF USE
The Area of application colour scheme of the dynamic stripes determines the respective product category for SPORT LAVIT® products.

- cold
- heat
- cold/heat
- protection

3. SEAL

DEVELOPED FOR SPORTSMOMENTS
The seal on every product symbolises the core of the SPORT LAVIT® brand. Products specially developed and manufactured in Germany for your sportsmoment!

2. INDICATOR OF INTENSITY

The large number on the front of the product describes the intensity of the effect. Intensities of SPORT LAVIT® products range from **1-6**.

4. EFFECT RANGE

COOLING EFFEKT
1 2 3 4 5 6

The effect scale describes the function of the product (in this case "COOLING") and clarifies the intensity of the effect.

- 1** The effect of the product is light-mild.
- 6** The effect of the product is very intense.

With system for the desired effect.
